SPECIAL NOTICE

Unsafe School Choice Option (USCO) violations are assigned to the location/site of the incident, because the purpose of USCO is to identify schools that continue to have unsafe incidents occur on the property. If schools A, B, and C sent students to school D and on three separate days a serious incident took place at school D there would be no accountability on school D if the "blame" went to A, B, and C. **Should this occur, please contact the central office for assistance for assistance in entering this information.**
