FY 2020 Budget Q & A

1. Troup County currently has several students that travel to Warm Springs to play adapted sports. At this time, Meriwether County funds the program. What needs to be done for Troup County to help in that area? Keep in mind that the Disability Act states that if you have children that want to play, you have to offer them a way. The American Association of Adapted Sports Programs is the association. They work in connection with GHSA.

System staff are researching participation levels and ways of supporting TCSS students involved in the Adaptive Sports Program.
